Diwali Message from the TRF Board

Varsha Dahad

Dear TRF Members ,Friends, Family, Supporters, and Well wishers,

We extend to you our hearty wishes for a healthy and happy festive celebrations.

Although we will reconnect physically after two years the charity arm has been actively working all through the pandemic.

Rajesh Chechani

We have supplied dry ration to the hospital staff, fresh hot food to the key workers, hand held tablets to the nursing home residents to stay connected to their families.

Last Diwali the team came together to unpack and then re pack nearly 1000 diyas shipped from India. These were then mailed to our members along with packets of nuts. With the help of diligently involved doctors we couriered oxygen concentrators to the hospitals in Rajasthan.

Dinesh Choudhary

Our “pièce de résistance “ has been the purchase of an ambulance! This was done in conjunction with Young Indian’s from Kolkata. The ambulance named Farishtey is being deployed in rural parts to service the needy as well. So next time you visit the city please look out for the ambulance with TRF logo. As you read through the magazine you will find more details of the operations.

Any adversity brings with it a lot of community support and strength, in fact it has galvanised us to bring TRF family together . You have helped us achieve all this.

Shailja Agarwal

This evening we come together in new normal to celebrate humanity, friendship , renewed hope and love. As we embrace new ways of thinking we have designed this years event with a twist.

We will start off with Bollywood meeting Hollywood music and dance, and then will let the contortionist, acrobats, take over our imagination. Mind you we will miss our youth performance this evening!

Have a wonderful evening

TRF Board.

Diwali Deliveries 2021

The year 2020 has been unprecedented and very challenging for all of us. Across the country we all experienced lockdown and restrictions on all but essential movements. Consequently, celebrations and festivals were very private and muted affair and the joys of celebrating together were put on hold.

We at TRF were disappointed too as we were not able to bring our TRF family together for our annual Diwali gala which is our main event to celebrate our tradition and culture.

However, keeping our primary objectives of culture and community Team TRF decided to spread some festive cheer amongst its growing family. The team worked hard and creatively to put together a small surprise package for all our members.

We made an attempt to celebrate Diwali with each family of our community receiving beautiful diya's, dry fruits and our annual magazine !

Following the strict government guidelines TRF Directors masked and gloved themselves to create over 500 goody bags and pack them in glittering labelled packages.

It was also an overwhelming task to get the addresses of old and new members updated and get these couriered to every household before Diwali.

This was a very satisfying experience for the entire team as we felt we connected and united the entire TRF family in enjoying the festival with a little extra joy. Even more gratifying and rewarding were the thankyou notes and messages from our members .

Made it all so worthwhile.

A big thank you to all our supporters and well wisher who helped us to make this happen. Stay blessed stay connected and stay safe.

TRF Charity Work 2020-21

TRF INDIA COVID RELIEF

(Distribution of 822 Oxygen concentrators and non-invasive ventilators)

In 2020, when the Covid cases peaked in the UK, the social distancing and temporary separation from families had a far-reaching impact on our elderly especially those staying at care homes.

TRF realised the immediate need and launched the 'Connecting Elderly@ carehomes with Families' campaign. We delivered more than 70 electronic tablet devices to the Care Homes in London.

Due to overwhelming response we continued the campaign in June 2020 and further delivered electronic devices to various care and nursing homes around London.

In April 2021, when deadly second wave spread from cities to small towns and brought India on its knees where over 100,000 people died in just 40 days. Hospitals ran out of beds and life-saving oxygen and beds during the second wave. We were getting pleas from the head of hospitals, patients and their loved ones requesting for the supply of liquid oxygen in the hospitals.

In response, we setup a 'TRF INDIA COVID RELIEF FUND' to help the government hospitals in the Rajasthan where oxygen concentrators were most needed. In the first phase, we bought and shipped 20 oxygen concentrators to Mahatma Gandhi hospital in Bhilwara and later, 32 oxygen concentrators and 14 non invasive ventilators to Government Medical College Ajmer which were deployed in the Covid ward.

TRF team directly coordinated with the government officials including Chief medical Officer, Deputy Collector and Collector, it was heart wrenching to hear the disastrous situation on the ground directly from government officials.

TRF worked hard and ensured that **over 756 oxygen concentrators** were shipped to different hospitals in the Rajasthan to save precious lives. This part of the operation was done with the doctors from Rajasthan Medical Alumni Association Inc who were already working on the ground level.

TRF would like to express a big Thank You to our sponsors for their generous donations towards 'Connecting Elderly@carehomes with Families' campaign and 'TRF INDIA COVID RELIEF FUND'

METHOD

1. Cut the corn lengthwise and then into small pieces, boil in a saucepan with water and half tsp of salt.
2. Meanwhile, put another saucepan to heat, add a generous amount of oil. When hot, add your chunk of hing and all the khada masalas.
3. Beat and smoothen the yoghurt with a fork, add some red chilli powder, grated ginger and sliced green chillies to the chunk and then pour the beaten yoghurt into the mix.
4. Stir continuously for few minutes on a medium flame until the oil separates from the yoghurt mix. Add the dry masalas like turmeric powder, 2 heaped teaspoons dhaniya powder, salt to taste and 1 teaspoon pisa jeera.

6. Reduce the flame and add the boiled bhutta pieces, toss in some kasuri methi and a handful of chopped coriander leaves. Save the water from the corn.
7. If the mix is thick, add some water from the boiled corn and keep stirring gently for another 5-7 minutes.
8. Voila! Malai Bhutta ready! Can eat with rotis, parathas or pooris. The corn absorbs the gravy and is very tasty on its own as well.

मोहब्बत

मोहब्बत वक़्त का तकाज़ा नहीं
उम्र लग जाती है; निभाने में,
ज़माने का क्या है, उसे क्या पता,
जिसे एक लम्हा लगा हमें भुलाने में

कौन कहता है मोहब्बत बर्बाद कर देती है,
हमारा तो वीराना आबाद हुआ है इस दर्द से,
महक सिर्फ़ फूलों में ही नहीं होती,
काटें भी महकते हैं इस मर्ज़ से,

आलम रंगीन हो जाता गर तुम आ जाते,
इस दिल को सुकून मिल जाता ,
तेरे न आने का मलाल है पर फिर भी,
चाह कर भी चाँद से चकोर कब मिल पाता

ज़माना कहता है हंस कर के जान जाएगी,
लो जान तो जहां के हवाले करते हैं,
हम तो वो हैं जो जनाब,
जो कायनात के बाद भी मोहब्बत करते हैं..

Do you need to think about inheritance tax?

BY PAVAN NAGORI, ESTATE PLANNING ADVISOR

"Inheritance Tax; - it is, broadly speaking; a voluntary levy paid by those who distrust their heirs more than they dislike the Inland Revenue"

- Roy Jenkins, Former Labour Chancellor

Inheritance Tax (IHT) is a tax on the estate of someone who has died, including all property, possessions and money. As you pass on your assets or money after you die, your heirs could face a tax bill of up to 40% of the portion of your estate above the threshold.

For example, if your estate's worth is £1,000,000 and you get a tax-free threshold of £500,000, your estate will pay HMRC £200,000.

You can reduce or avoid IHT in a number of ways

The best way to reduce inheritance tax on estate is to spend your money while you can!

There's a tax-free allowance, and you can also give away a certain amount of your money during your lifetime, tax-free and without it counting towards your estate. Most common ways to reduce your estate:

- Gift your assets away (7-year rule)
- Put your assets in a trust (properly executed, you can even put your assets into a trust and still earn an income)
- Distribute excess income

Generational Inheritance Tax is a reality for most in the UK wherein money is taxed as it is inherited through the generations.

In essence, this means that your children, and even your grandchildren, may be required to pay additional inheritance tax on money that you've already paid your 40% inheritance tax on!

This will normally be the case if you and your spouse have standard wills.

Generational IHT: *Is it fair that your children & grandchildren should be taxed on monies that have ALREADY been taxed. Learn more...*

IHT: A tax on ignorance

Figures requested by Canada Life as part of a freedom of information showed estates worth £10m or more paid only 10 per cent IHT on average!

WHY DO YOU?

Last Will and Testament & Estate Planning

Your Last Will and Testament (Will) is the most important part of the estate planning process that contains details about how you wish your assets to be passed on after your death, who

are executors of the will and if you have minor children, the Will describes who will take care of them.

In case you don't have a Will, it might get tricky to sort your estate out...for instance If you're assuming that your spouse will inherit all your wealth, then it's not the case as per 'intestacy rules'

Estate planning goes beyond the standard Will and is all about finding a way to pass on your assets to the next generation most effectively by lowering Inheritance tax. The estate plan will contain your Will, trust deeds, memorandum of wishes and nominations/assignments of insurance and pensions.

Trusts and how are they used

Trusts are one of the most valuable financial planning tools, but they are also one of the least-well understood.

Trusts are used as a vehicle to pass on wealth to children and grandchildren in a tax efficient manner. The trustees retain control over where the assets are invested and how much is paid out of the trust, but they will only have the option to pay out to designated beneficiaries.

While there are many types of trusts, the vast majority in use are discretionary trusts. These trusts have a class of beneficiaries defined such that they can benefit from the assets but the assets are not considered part of their estate, thus protecting the beneficiaries from IHT, divorces and other attacks

**PLAN, PROTECT & PRESERVE YOUR WEALTH
DON'T LEAVE IT TO CHANCE**

The law of trusts first developed in the 12th century from the time of the crusades.

When a landowner left England to fight in the Crusades, he conveyed ownership of his lands to a friend to manage the estate and pay and receive feudal dues in his absence, on the understanding that the ownership would be conveyed back on his return. However, Crusaders often encountered refusal to hand over the property upon their return. Unfortunately, the English common law did not recognize his claim.

The law was changed and the legal owner would hold the land for the benefit of the original owner, and would be compelled to convey it back to him when requested. The Crusader was the "beneficiary" and the acquaintance the "trustee". And so, TRUSTS were born!

TRF Charity - Ambulance Donation

Charity Initiative during Covid 19

In April 2020, when Covid peaked in the UK, TRF decided to do its 'bit' to appreciate, motivate and respect the NHS and the unsung heroes. TRF has shown its gratitude to both. We worked with the Hillingdon Hospital's food bank team and helped them set up the food bank for the NHS staff by donating the dry supplies.

TRF also acknowledged the unsung warriors in the front line of our daily lives. We served a hot thank you lunch to the staff of Sainsbury's Stanmore branch. It was an expression of gratitude for service our community in these challenging times by making sure we had food on our tables.

In 2021, India suffered with deadly Covid wave 2. This resulted in high number of casualties, people were left with no choice but to bring their loved ones for last rites in auto-rickshaws and private cars due to a shortage of ambulances in the whole country.

TRF identified Young Indians (YI) which is a not-for-profit organisation and is playing a proactive role in India's development process.

Young Indian has their presence in 55 city's chapters in 24 states and 4 union territories across India and has been doing significant charity work across the nation.

YI were desperately trying to help patients and hospitals with the resources that they have available and showed immediate desperate requirement of an ambulance.

Team TRF considered this request and helped secure funds for the purchase of an ambulance called "Farishtey" to help patients in the desperate times. Post wave 2 now the ambulance is being used to help patients in the remote areas.

The decision was taken to ensure that the people in desperate needs do not have to wait for the treatment and to save lives in future.
